✉️ invest@antipodes.com

<sup>1</sup> Based on gross returns in NZD

<sup>2</sup> GICS classification

<sup>3</sup> Call (put) options represented as the current option value (delta adjusted exposure)

<sup>4</sup> Antipodes classification

<sup>5</sup> Where possible, regions, countries and currencies classified on a look through basis

<sup>6</sup> All metrics are based on gross of fee returns in AUD terms since inception. The upside/downside capture ratio is the percentage of benchmark performance captured by the fund during months that the benchmark is up/down. Standard deviation is a measure of risk with a smaller figure indicating lower return volatility. The Sharpe ratio measures returns on a risk adjusted basis with a figure > 1 indicating a higher return than the benchmark for the respective levels of return volatility.

## Disclaimer

THIS FUND FACT SHEET PERTAINS TO THE FOLLOWING:

Antipodes Global Fund (PIE) (the "Fund")

This Fact Sheet is provided by Antipodes Partners Limited ('Antipodes') (ABN 29 602 042 035, AFSL 481580) in good faith and is designed as a summary to accompany the Product Disclosure Statement for the Antipodes Investment Funds (Funds). The Product Disclosure Statement is available from Antipodes, or the issuer FundRock NZ Limited on www.fundrock.com, and on <https://disclose-register.companiesoffice.govt.nz/>. The information contained in this Fact Sheet is not an offer of units in the Funds or a proposal or an invitation to make an offer to sell, or a recommendation to subscribe for or purchase, any units in the Funds. If you are making an investment directly then you will be required to complete the application form, which can be obtained from the Manager, FundRock. The information and any opinions in this Fact Sheet are based on sources that Antipodes believes are reliable and accurate. Antipodes, its directors, officers and employees make no representations or warranties of any kind as to the accuracy or completeness of the information contained in this fact sheet and disclaim liability for any loss, damage, cost or expense that may arise from any reliance on the information or any opinions, conclusions or recommendations contained in it, whether that loss or damage is caused by any fault or negligence on the part of Antipodes, or otherwise, except for any statutory liability which cannot be excluded. All opinions reflect Antipodes' judgment on the date of this Fact Sheet and are subject to change without notice. This disclaimer extends to FundRock, and any entity that may distribute this publication. The information in this Report/Presentation is not intended to be financial advice for the purposes of the Financial Advisers Act 2008 or the Financial Markets Conduct Act 2013. In particular, in preparing this document, Antipodes did not take into account the investment objectives, financial situation and particular needs of any particular person. Professional investment advice from an appropriately qualified adviser should be taken before making any investment. Past performance is not necessarily indicative of future performance, unit prices may go down as well as up and an investor in the fund may not recover the full amount of the capital that they invest. No part of this document may be reproduced without the permission of Antipodes or FundRock. FundRock is the issuer and manager of the Funds. Antipodes is the investment manager of the Funds. Options exposure represents the market downside. For put options (typically used to limit potential downside) delta-adjusted exposure is used and for call options (typically used to capture potential upside) exposure is calculated using the current option value.
