INVESTMENT MANAGER'S REPORT

The 6-month period to December 2023 was driven by macroeconomic factors, with central banks oscillating between dovish hikes and hawkish pauses in-line with expectations during the third quarter. Yield curves adapted to a higher-for-longer scenario, resulting in an appreciation of the US dollar, whilst a cut in production by OPEC+ pushed oil prices higher. Overall, these factors acted as headwinds to global equities over the September quarter. However, towards the end of the year global equities moved higher over the fourth quarter, as markets were supported by a dovish pivot in global central bank tone, indicating the potential for interest rate cuts. Headline inflation data continued to cool, assisted by lower energy costs, despite rising geopolitical tensions in the middle east.

Against this backdrop, the Antipodes Global Fund underperformed the MSCI All Country World Index (net div.), before fees over the period. At a sector level, notable contributors included communication services, consumer staples in addition to short positioning in healthcare and industrials. Stock selection in the consumer discretionary sector was the most notable detractor, with real estate, financials and an underweight in information technology also detracting. From a regional perspective, positioning in LATAM (namely Brazil and Mexico) as well as positioning in Italy, France, Japan, Germany as well as Indonesia contributed positively to performance. Underweight long positioning and short positioning in North America detracted over the quarter, in addition to positioning in China/Hong Kong.

At a stock level, key contributors to performance over the 6 months to 31 December 2023 included;

- Frontier Communications within the Infrastructure/Property cluster whereby the telecommunications provider
 continuing to advance over the month following calls in October from an activist shareholder for the company
 to be open to takeover offers.
- TotalEnergies which continued to push higher on the back of strengthening oil prices over the third quarter in addition to announcing plans to boost production, increase shareholder distributions and add to its buyback programme.
- Roku, with the media platform pushing higher towards the end of July upon reporting earnings that exceeded
 expectations, resulting in upgraded third-quarter guidance. In November, Roku reported the addition of more
 new users than anticipated, with the total user base standing at 75.8 million, a net increase of 2.3 million active
 accounts from the previous quarter with Roku branded TVs accounting for a greater portion of net additions.
- Itau Unibanco, with the Brazilian bank benefitting from a positive inflection in the Brazilian economy, with
 investor sentiment buoyed by rate cuts and positive macroeconomic data. Brazilian financials were further
 supported by signs that non-performing loans have peaked and indications of an acceleration of credit growth
 into 2024.

Key stock level detractors included:

- Country Garden Services Holdings, Ping An and Baidu were impacted by weaker than expected Chinese
 macroeconomic data and slower recovery in the property sector which continued to impact investor sentiment.
- Farfetch, with the luxury e-commerce retailer reporting underwhelming second-quarter earnings in August despite posting a revenue uplift of 1.2% year-on-year. The CEO cited challenges in the retailers top two markets, with a less than robust recovery in China and less buoyant consumer sentiment in the US.
- Siemens Energy, with the company announcing a profit warning in June following the detection of faults in externally supplied components used in some legacy model onshore wind turbines by subsidiary Siemens Gamesa. The company also disclosed, but did not quantify, previously unidentified productivity and ramp up challenges in the wind business. In October, the company declaring it was in talks with the German government over performance guarantees needed to safeguard projects after the company unveiling quality issues. The share price rebounded later in the month, upon comments from the German Economy Minister confirming the government was in talks with all parties involved, including parent company Siemens AG.
- Short positioning and not holding Alphabet and NVIDIA detracted over the period.

January 2024

Antipodes Global Fund - UCITS

For the financial period ended 31 December 2023

1. Establishment and Organisation

Antipodes Global Fund – UCITS (the "Fund") was established as a sub-fund of the Pinnacle ICAV (the "ICAV").

The ICAV is an Irish collective asset-management vehicle constituted as an umbrella fund with segregated liability between sub-funds. The ICAV is authorised by the Central Bank of Ireland (the "Central Bank") as an Undertaking for Collective Investment in Transferable Securities ("UCITS"). The ICAV was incorporated on 20 March 2017, authorised by the Central Bank on 5 May 2017 and commenced operations on 6 July 2017.

As at 31 December 2023, there are three sub-funds in existence. The Fund was authorised by the Central Bank on 5 May 2017 and commenced operations on 6 July 2017. Antipodes Global Fund – Long – UCITS was authorised by the Central Bank on 23 November 2017 and commenced operations on 23 January 2018. Aikya Global Emerging Markets Fund – UCITS was approved by the Central Bank on 3 June 2020 and commenced operations on 16 October 2020. Separate condensed interim reports and unaudited financial statements have been prepared for each of the sub-funds, which are available free of charge on request from the ICAV. This report is for Antipodes Global Fund – UCITS only.

Investment Objective

The aim of the Fund is to achieve absolute returns in excess of the MSCI All Country World Net Index in USD over the investment cycle (typically 3-5 years).

2. Principal Accounting Policies

Basis of Preparation

The condensed interim report and unaudited financial statements have been prepared in accordance with IAS 34 'Interim Financial Reporting', the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011, as amended (the "UCITS Regulations") and Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations 2019, as amended (the "Central Bank UCITS Regulations").

The accounting policies applied are consistent with those of the annual financial statements for the financial year ended 30 June 2023, as described in those financial statements. The condensed unaudited interim financial statements should be read in conjunction with the Fund's annual audited financial statements for the financial year ended 30 June 2023, which were prepared in accordance with International Financial Reporting Standards ("IFRS") as adopted by the European Union ("EU"), the UCITS Regulations and the Central Bank UCITS Regulations.

Directors, with the support of the Investment Manager, consider a number of factors and potential indicators in relation to the Fund's ability to continue as a going concern and continuously monitor the performance of the ICAV. The financial statements are prepared on a going concern basis.

New standards, amendments and interpretations issued and effective for the financial period beginning 1 July 2023

There are no new standards, amendments to standards or interpretations are issued and effective for the financial period beginning 1 July 2023 that have a material effect on the financial statements of the ICAV.

New standards, amendments and interpretations issued but not effective for the financial period beginning 1 July 2023 and not early adopted

A number of new standards, amendments to standards and interpretations are effective for the financial period beginning 1 July 2023, and have not been early adopted in preparing these financial statements.

For the financial period ended 31 December 2023 (continued)

2. Principal Accounting Policies (continued)

The following new and amended standards and interpretations are not expected to have a significant impact on the Fund's financial statements:

- Classification of Liabilities as Current or Non-Current (Amendments to IAS 1).
- Lease Liability in a Sale and Leaseback (Amendments to IFRS 16).
- Disclosure of Supplier Finance Arrangements (Amendments to IAS 7 and IFRS 7).
- IFRS S1 General Requirements for Disclosure of Sustainability-related Financial Information.
- Lack of Exchangeability (Amendments to IAS 21).

Specific Instruments

The Fund may employ techniques and instruments to gain exposure, hedge the overall exposure of the Fund or leverage their exposure to particular investments. The Fund may use both exchange-traded and over-the-counter derivatives including options, futures, forwards, swaps and contracts for differences. These, and other derivatives, can be used to implement investment decisions and for efficient portfolio management purposes.

Futures contracts

Futures contracts are a commitment to make or take delivery of a fixed quantity of a specified security, index, currency or commodity at a predetermined date in the future. Changes in the value of the futures contracts are recorded as unrealised gains and losses by marking-to-market the value of the contract at the financial period end date. When the contract is closed, the difference between the proceeds from (or cost of) the closing transaction and the original transaction is recorded as a realised gain or loss. Realised and unrealised gains and losses on derivatives are accounted for in the Statement of Comprehensive Income in Net realised and unrealised gain/(loss) on financial assets and financial liabilities at fair value through profit and loss and foreign exchange.

Forward Contracts

A forward contract involves an obligation to purchase or sell a specific currency at a future date at a price set at the time the contract is made. Forward contracts are re-valued by reference to the forward price at which a new forward contract of the same size and maturity could be undertaken at the valuation date. The unrealised gain or loss on open forward contracts is calculated as the difference between this forward price and the contract rate on the date entered into and is included in financial assets at fair value through profit or loss and financial liabilities at fair value through profit or loss in the Statement of Financial Position and Statement of Comprehensive Income in Net realised and unrealised gain/(loss) on financial assets and financial liabilities at fair value through profit and loss and foreign exchange.

Options

Options are financial derivative instruments that give the buyer, in exchange for a premium payment, the right, but not the obligation, to either purchase from (call option) or sell to (put option) the writer a specified underlying instrument at a specified price on or before a specified date. Both the realised and unrealised gain/(loss) in respect of options contracts are recognised in the Statement of Comprehensive Income in Net realised and unrealised gain/(loss) on financial assets and financial liabilities at fair value through profit and loss and foreign exchange.

Contracts for Differences

Contracts for differences are contracts between two parties, typically described as "buyer" and "seller", stipulating that the seller will pay to the buyer the difference between the current value of an asset and its value at contract time (if the difference is negative, then the buyer pays instead to the seller) and can be used to secure a profit or avoid a loss by reference to fluctuations in the value or price of equities or financial instruments or in an index of such equities or financial instruments. Realised and unrealised gain/(loss) on contracts for differences are contained in Net realised and unrealised gain/(loss) on financial assets and financial liabilities at fair value through profit or loss and foreign exchange.

For the financial period ended 31 December 2023 (continued)

2. Principal Accounting Policies (continued)

Specific Instruments (continued)

Credit default swap

A credit default swap contract involves an arrangement between the Fund and a counterparty which allows the Fund to protect against losses incurred as a result of default on certain designated instruments by a specified reference entity. The Fund may at the discretion of the Investment Manager be the buyer and/or seller in credit default swap transactions to which the Fund is a party. The credit events are specified in the contract and are intended to identify the occurrence of a significant change in the creditworthiness of the reference asset. On settlement, credit default products may be cash settled or involve the physical delivery of an obligation of the reference entity following a default. The buyer in a credit default swap contract is obligated to pay the seller a periodic stream of payments over the term of the contract provided that no event of default on an underlying reference asset has occurred. If a credit event occurs, the seller must pay the buyer the full notional value of the reference asset that may have little or no value. If the Fund is a buyer and no credit event occurs the Fund's losses will be limited to the periodic stream of payments over the term of the contract. As a seller, the Fund will receive a fixed rate of income throughout the term of the contract, provided that there is no credit event. If a credit event occurs, the seller must pay the buyer the full notional value of the reference obligation. Realised and unrealised gains/losses on credit default swaps are contained in Net realised and unrealised gain/(loss) on financial assets and financial liabilities at fair value through profit or loss and foreign exchange.

3. Related Party Transactions

IAS 24 'Related Party Disclosures' requires the disclosure of information relating to material transactions with parties who are deemed to be related to the reporting entity. The Directors, Investment Manager, Global Distributor and Waystone Management Company (IE) Limited ("WMC") are related parties.

Mr. Karl Barrow and Mr. Calvin Kwok are Directors of the ICAV and employees of the Global Distributor.

Mr. Roderick Swan is a Director of the ICAV and an employee of the Manager.

WMC also provides money laundering reporting officer and VAT reporting services to the ICAV. The total WMC fees for the financial period ended 31 December 2023 amounted to US\$ 18,275 (31 December 2022: US\$ 29,931).

Directors and investment management fees charged and payable are disclosed in the Statement of Comprehensive Income and Statement of Financial Position, respectively. Global distributor fees are paid by the Investment Manager.

As at 31 December 2023, 85.72% (30 June 2023: 86.65%) of the Net Asset Value ("NAV") of the Fund is held by one Shareholder (30 June 2023: one).

4. Transactions with connected persons

Regulation 43(1) of the Central Bank UCITS Regulations states that "a responsible person shall ensure that any transaction between a UCITS and a connected person is conducted

- a) at arm's length; and
- b) in the best interest of the Shareholders of the UCITS".

As required under Regulation 81(4) of the Central Bank UCITS Regulations, the Directors are satisfied that there are in place arrangements, evidenced by written procedures, to ensure that the obligations that are prescribed by Regulation 43(1) are applied to all transactions with a connected person; and all transactions with connected persons that were entered into during the period complied with the obligations that are prescribed by Regulation 43(1).

For the financial period ended 31 December 2023 (continued)

5. Fair Value Measurements

IFRS 13, Fair Value Measurement, requires a fair value hierarchy for inputs used in measuring fair value that classifies investments according to how observable the inputs are. Observable inputs are those that market participants would use in pricing the asset or liability based on market data obtained from sources independent of the Fund. Unobservable inputs reflect the Fund's assumptions, made in good faith, about the inputs market participants would use in pricing the asset or liability developed based on the best information available in the circumstances. The fair value hierarchy is categorised into three levels based on the inputs as follows:

Level 1 - Valuations based on quoted prices in active markets for identical assets or liabilities;

Level 2 - Valuations based on quoted prices in markets that are not active or inputs other than quoted prices for which all significant inputs are observable, either directly (as prices) or indirectly (derived from prices); and

Level 3 - Valuations based on inputs that are unobservable and significant to the overall fair value measurement.

There were no transfers between Levels during the financial period ended 31 December 2023 or financial year ended 30 June 2023. There were no Level 3 investments as at 31 December 2023 (30 June 2023: Nil).

The following table analyses within the fair value hierarchy the Fund's financial assets and financial liabilities measured at fair value at 31 December 2023:

	Level 1	Level 2	Level 3	Total
	US\$	US\$	US\$	US\$
Financial assets at fair value through

· <u>-</u>	(79,275)	(4,233,301)	-	(4,312,576)

Assets and liabilities not measured at fair value through profit or loss but for which fair value is disclosed

Cash and cash equivalents are classified as Level 1 and all other assets and liabilities not measured at fair value but for which fair value is disclosed are classified as Level 2, as this reflects a reasonable approximation of their measured fair value on the Statement of Financial Position.

6. Financial Derivative Instruments and Efficient Portfolio Management ("EPM")

Financial Derivative Instruments ("FDI") which the Fund may utilise (for hedging, EPM and/or investment purposes), within the conditions and limits set out in the Central Bank UCITS Regulations, comprise exchange-traded and over the counter derivative instruments as described herein, including various types of swaps (currency swaps, equity and equity index swaps, total return swaps, credit default swaps), currency and forward contracts, contracts for differences, participation notes, futures, swaptions, options, caps/floors, convertible securities and combinations thereof, provided that the underlying risks represent permitted assets. The Fund may hold subscription rights received as a result of a corporate action by an entity in which the portfolio holds equity securities.

The Fund may use EPM techniques and instruments such as repurchase agreements, reverse repurchase agreements and stocklending agreements in respect of the assets addressed in the Investment Policies section of the Supplement for the Fund. The Fund did not engage in any EPM techniques during the financial period.

For the financial period ended 31 December 2023 (continued)

10. Distributions

The Fund made no distributions during the financial periods ended 31 December 2023 and 31 December 2022.

11. Significant Events during the Financial Period

On 29 September 2023 KBA Consulting Management Limited, the Management Company of the ICAV, completed its merger with Waystone Management Company (IE) Limited ("WMC"). WMC is the surviving entity post-merger and as such, the ICAV's Management Company is WMC from this date.

An updated prospectus and supplement were issued on 6 November 2023.

There have been no other events during the financial period that require disclosure in or adjustment to these financial statements.

12. Events since Financial Period End

There has been no significant capital activity on the Fund post period end.

There have been no events since the financial period end that require disclosure in oradjustment to these financial statements.

13. Soft Commission Arrangements

The Investment Manager may effect transactions through the agency of another person with whom the Investment Manager has an arrangement under which that party will, from time to time, provide or procure for the Investment Manager research.

Under such arrangements, no direct payment is made or required to be made for such services or benefits, but instead the Investment Manager undertakes to place business with that party. In such case, the Investment Manager shall ensure that such arrangements shall assist in the provision of investment services to the ICAV and that the broker/counterparty to the arrangement has agreed to provide best execution to the ICAV.

The Fund did not enter into any of these transactions during the financial period (31 December 2022: Nil).

14. Approval of Financial Statements

The financial statements were approved and authorised for issue by the Board of Directors on 15 February 2024.
